- German A1

## PROFILE

Frontend developer with a science background and strong attention to detail. After nearly two years in the food industry, I transitioned into web development, creating responsive, user-focused apps using React, TypeScript, and modern tools. Eager to grow in a collaborative team environment.

## WORK EXPERIENCE

### Food Technologist – R&D Department

*Vitalia Healthy Food · Skopje, North Macedonia (Apr 2023 – Apr 2024)*

Healthy food manufacturing company

- Developed new nutritious food products, ran formulation trials, scaled recipes for production.

### Food Technologist – Production

*Zito Luks · Skopje, North Macedonia (Jul 2022 – Apr 2023)*

Leading bakery and bread production company

- Monitored production, optimized recipes, and ensured food safety compliance.

## FRONTEND PROJECTS

- Handyman Finder App – *React, TypeScript, CSS Modules*  
Client-side React app for finding and booking skilled handymen for various services.
- Hakaton Kotur Project – *React, TypeScript, CSS/Bootstrap*  
Responsive React website for a lounge bar with menu, events, reservations, and job application form.
- Street Artist Project – *Javascript, CSS/Bootstrap, HTML*  
Mobile-first responsive web page for art enthusiasts showcasing artworks and artist auctions built with HTML, CSS, Bootstrap, and JavaScript.
